# Market Summary

## 市场综述

The international school market in China has gone from strength to strength and 2018 alone saw the opening of 87 new international schools across the country, bringing the total to 821. Among these schools, the British curriculum is the most commonly used, with 40% of schools offering an A-Level curriculum, ahead of the USA's AP (26%) and the International Baccalaureate (15%). Furthermore, as the popularity of international curriculums among Chinese parents continues to grow, the percentage of international schools that admit Chinese nationals has reached record numbers. Private schools that admit Chinese nationals made up more than half of all international schools for the first time in 2018 at 52%, compared to private schools open to foreign nationals only (15%) and international departments in public schools (33%)<sup>1</sup>.

In the pages below, we have compiled a list of all the British independent school branches is expected to have opened or are due to open in China. The report specifically looks at British independent schools as opposed to all schools with British curriculums.

中国的国际学校市场正在不断壮大，仅2018年就新增了87所国际学校，总数达到了821所。在这些学校中，英国课程最受欢迎，提供A-Level课程的学校占40%，比例高于美国的AP（26%）课程和国际文凭课程（15%）。此外，随着中国父母对于国际课程的认可，国际学校接收中国公民的比例达到了创纪录的水平。与仅向外籍公民开放的私立学校（15%）和公立学校中设立的国际部（33%）相比，在2018年私立学校的数量首次占到国际学校总数的一半以上，达到52%。

在以下篇幅当中，我们精心编制了一份已在中国投入使用或即将运营的所有英国私立学校分校的名单。本报告专门关注的对象是英国私立学校，而非所有使用英国课程的学校。

## THREE TRENDS 三大趋势

1

### A surge in British independent school campuses 英国私立学校数目激增

At the end of 2017, there were 22 British independent school campuses operating in China. This number is expected to have more than doubled by the end of 2019, with ten new campuses opening in 2018 and a further 14 openings planned in 2019.

截至2017年底，中国有22所英国私立学校。到2019年底，这个数字还将增加一倍以上，2018年将有10所新学校开始运营招生，另外还有14所新学校计划于2019年招生。

The number of British independent school campuses in China will **increase by 44% in 2019.**

2019年在华的英国私立学校数量将增加**44%**。

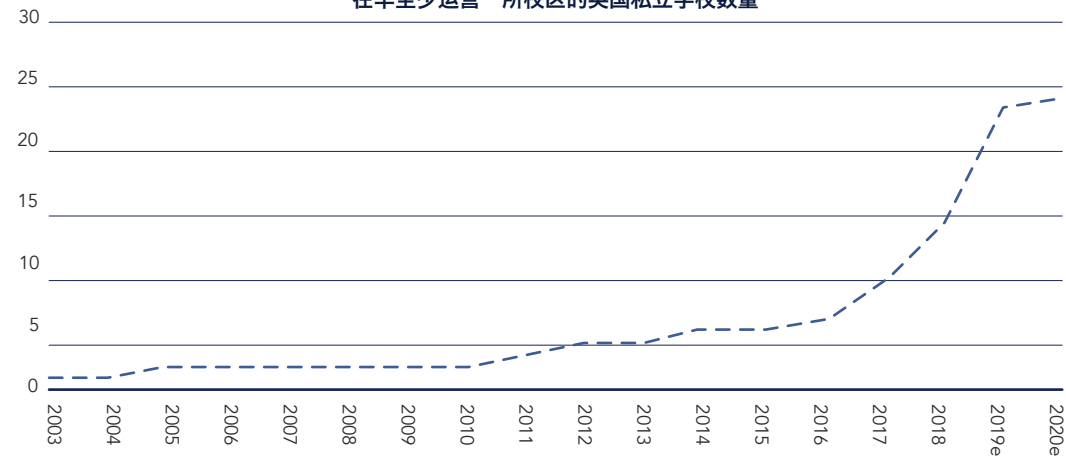

2

## A growing diversity of brands 学校品牌日趋多样化

Prior to 2018, ten different British independent schools were running international campuses in China. However, 2018 saw a record five schools open their first international campus in China. An additional nine will do the same in 2019.

2018年之前，10所不同的英国私立学校在中国开设了国际学校。不过到了2018年创纪录地出现了5家新学校开设了他们在中国的第一所国际学校，还有另外9所学校将于2019年在华开设他们的首家国际学校。

The number of British independent school brands is expected to **increase by 64% in 2019.**

英国私立学校的品牌数量预计在2019年将增加**64%**。

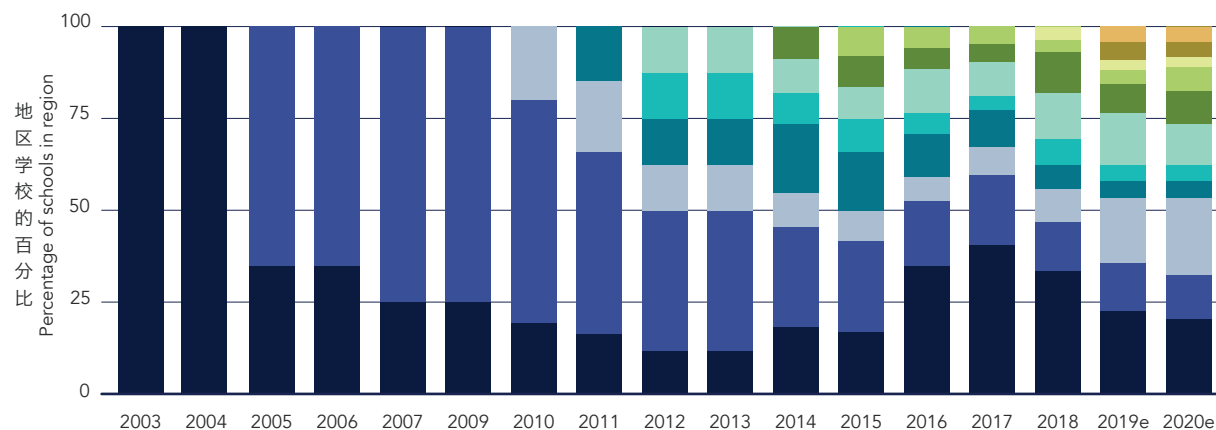

3

## A growing diversity of cities 城市的日趋多样化

International schools are no longer the preserve of Shanghai and Beijing. In 2018, Shenzhen, Fuzhou, Xuzhou and Wuxi all saw their first British independent school campuses as will the cities of Nanjing, Guangzhou, Chongqing, Hefei and Foshan in 2019.

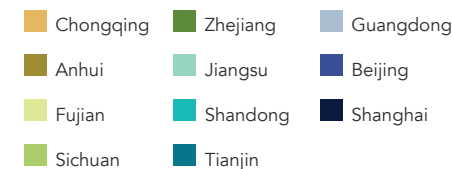

国际学校不再是上海和北京的专利。2018年，深圳、福州、徐州和无锡都开设了首家英国私立学校，在2019年南京、广州、重庆、合肥和佛山等城市也将陆续开设他们的第一家英国私立学校。

# What's causing the 2<sup>nd</sup> Wave of British Schools? 英国私立学校第二次办学浪潮出现的原因有哪些？

## 1. Hybrid Schools 混合学校

International schools may only admit Chinese passport holding students if their curriculums incorporate the Chinese national curriculum for compulsory education (grades 1-9). A growing number of schools are now opting to set up branches with blended British-Chinese curriculums. This model has created access to a wider body of students and allowed for faster-paced growth.

国际学校一般只有在纳入中国义务教育课程（1-9年级）的情况下，才能招收中国学生。越来越多的国际学校现在选择建立分支机构提供英-中两国的混合课程。更多的学生因此受益并且获得了更快的成长空间。

## 2. Economic Growth 经济增长

China has continued along its trajectory of economic growth and internationalisation. This has created many new opportunities for international schools in second and third tier cities where a growing number of people are able to afford the relatively high school fees of British independent schools.

中国一直在经济增长和国际化的道路上前进。这为私立学在国内二三线城市开设国际学校创造了许多新的机会。越来越多的人能够负担得起英国私立学校较为高昂的学费。

## 3. New Revenue Streams 新的收入来源

The cost of sending a student to a private school in the UK has grown exponentially in the past quarter century. ISC data found that private school fees rose 550 per cent between 1992 and 2016, far outstripping consumer prices and average wages that rose 201 and 217 per cent respectively. Creating new sources of income through overseas branches allows independent schools to grow without raising fees at home.

在过去的四分之一世纪里，英国私立学校的学费呈几何级数增长。据ISC的调查数据显示，从1992年至2016年，私立学校的学费上涨了550%，远远超过了消费者价格201%和平均工资217%的上涨幅度。通过开设海外分支机构创造新的收入来源的方式，私立学校能够在不增加本土学校的费用的基础上继续增长。

## 5. DIT Education 国际贸易部教育

The Department for International Trade was founded by the British government in July of 2016 with the objective of negotiating international trade agreements, promoting British business abroad and improving business environment and market access. These efforts have helped raise the profile of British organisations and introduce them to Chinese partners, paving the way for more cooperation.

## 4. Franchise Models 特许经营模式源

Franchise models are arrangements in which independent schools are paid a yearly franchise fee as well as a percentage of school fees in return for the use of their brand, curriculum and expertise by the new school. The number of British independent schools opting to use this model has been on the rise, as it provides schools with a steady income but with low levels of risk and less engagement from the franchisor.

特许经营模式是指加盟的私立学校每年支付特许经营费以及一定比例的学费，以取得品牌、课程和专业知识的使用权。目前来看，选择使用这种模式在国外设立分支机构的英国私立学校的数量一直在不断地增加，因为这种方式在为学校提供稳定收入来源的同时所承担的风险水平也较低，而且为特许经营节省了精力。

英国政府于2016年7月成立了英国国际贸易部，旨在帮助英国政府进行国际贸易协定谈判，促进英国海外业务，改善商业环境以及处理市场准入方面的事务。事实证明所有付出的努力都有效地提升了英国机构组织的形象，同时将它们介绍给中国的合作伙伴，并为两国加强合作铺平了道路。

## 6. The Golden Age of Relations 中英关系的“黄金时代”

China and the UK have been touted as experiencing a ‘golden-age’ of relations and both countries have made increased efforts to strengthen ties and encourage trade. This has helped create a positive environment for more Chinese and British companies to cooperate in education.

近年来随着中英两国关系的蓬勃发展，两国关系开启了“黄金时代”，在这样的背景下，双方加强了联系合作，并且增强了贸易往来的力度。这也为更多中英两国的公司在教育领域开展合作创造了一个积极的环境。

## 7. Property Companies 房地产置业公司

The prestigious brand of British independent schools can lend status to residential areas. Property companies looking to improve the standing of building complexes and raise prices have therefore been enthusiastic about acquiring schools with an international brand.

著名的英国私立学校品牌可以提升其所在区域的房产价值。因此，房地产置业公司热衷于收购具有国际品牌的学校来提升公司建筑产品的地位和价格。

## 8. A Long History of Education 悠久的历史

The UK is home to many of the oldest schools in the world, most of which boast famous historical figures amongst their alumni. As international schools receive increased attention from Chinese consumers, this history gives British independent schools a competitive advantage, allowing them to stand out in an increasingly crowded market.

英国拥有众多享誉世界、历史悠久的老牌名校，校友中有无数具有世界影响力的历史人物。随着国际学校越来越受到中国消费者的青睐，英国悠久的历史历史和传统为其私立学校提供了得天独厚的优势，使其在日渐激烈的国际教育市场竞争中脱颖而出。

## 10. Broader UK Education Appeal 更广阔的英国教育吸引力

The UK is one of the most popular study destinations for Chinese students. According to the UK's Higher Education Statistics Agency, between 2006/7 and 2016/17, the number of first year Chinese students in China more than doubled from 25,135 to 66,415. For Chinese students hoping to gain a place at a university or school in the UK, British independent schools with a recognised name have a strong appeal.

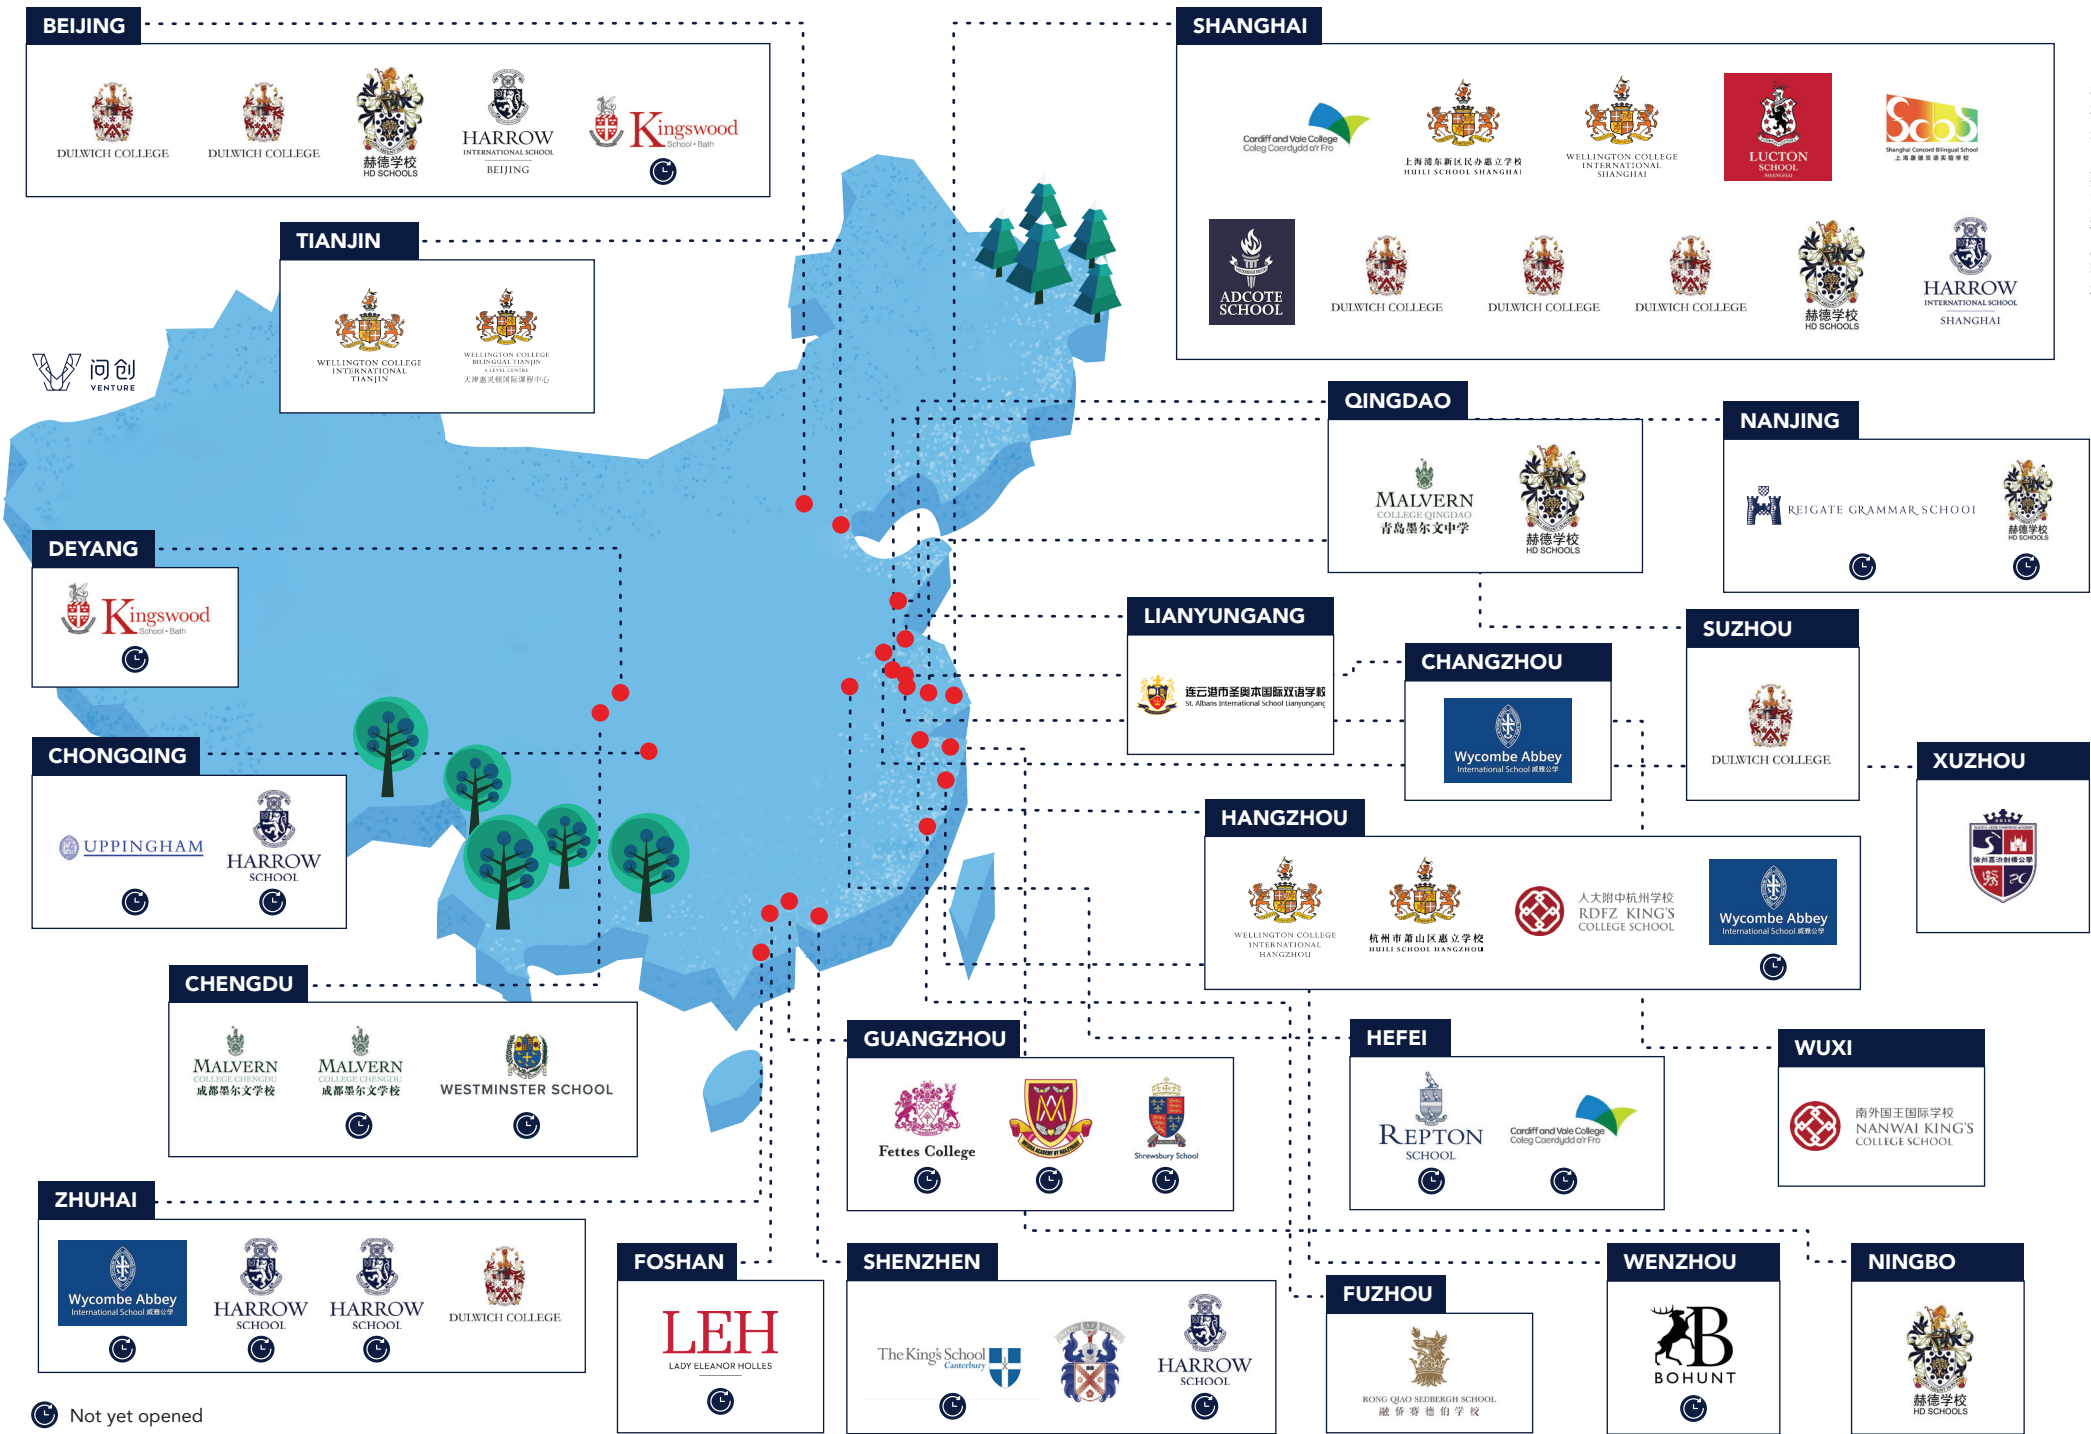

## 9. The British Curriculum 英国课程

The British curriculum enjoys a strong international reputation. ISC research found that British curriculums account for nearly half of curriculums in English-medium international schools in 2018. With their extensive history in the UK, British independent schools are regarded by parents as a safe pair of hands to successfully deliver this curriculum to Chinese students.

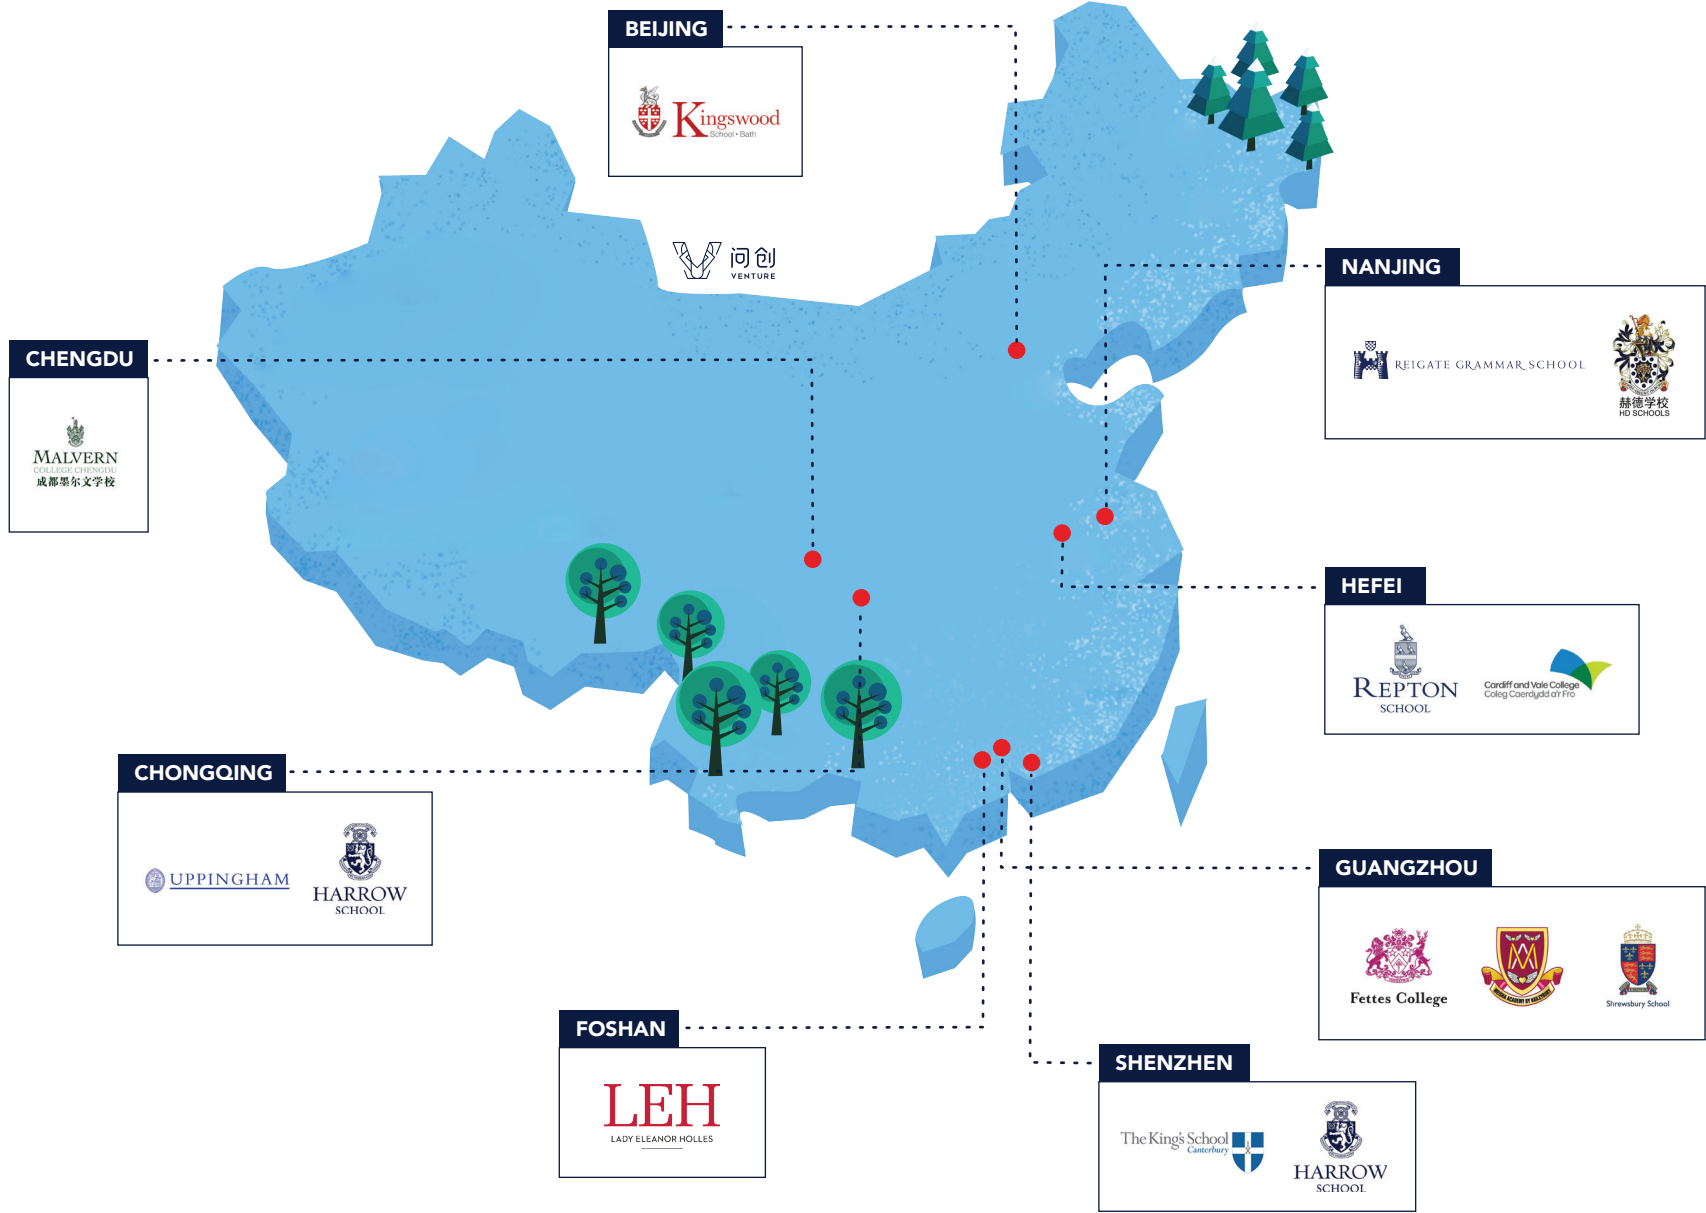

英国课程在国际上享有非常高的声誉。据ISC的调查数据显示，在2018年，英语授课的国际学校近一半以上的课程使用了英国课程。凭借其在英国的悠久历史，英国私立学校被学生家长视为成功向中国学生提供此课程的可靠选择。

在中国学生眼中，英国是最受欢迎的学习目的地之一。英国高等教育统计局的数据显示，从2006/7年到2016/17年之间，来自中国的大学一年级新生人数从25,135增加到66,415，增幅达一倍之多。对于那些希望在英国大学获得一席之地的中国学生来说，名牌英国私立学校毕业生的身份对学生而言具有强烈的吸引力。
