Summer 2021

# Summer courses for globally competitive students in China

Quality summer programmes can have a real impact on young people's development, both emotional and academic, but they can also be truly formative moments to discover new passions, mix with new people and expand possibilities.

This guide is a compilation of programmes provided by British Chamber member companies this summer. Ranging from a Model United Nations summer camp in Chengdu to a cutting-edge STEM programme in Ningbo, they all have three things in common:

- high-quality teaching (in most cases with foreign teachers)
- a focus on specific skills that foster global competence
- fun, fun, fun!

We hope every student in China will have a life-changing summer in 2021.

## Feature in this guide!

Promoting all 2021 summer programmes from schools, universities, training centres and other education providers; ideally with a focus on British teachers, content or exams.

### About Us

With the support of University of the Arts London, International Creative Art & Design Academy (Chamberlain ICA) was established in 2007. We are one of the first top-class art and design education institutions focusing on creative art and design education. We focus on Western creative art and design education.

Western Creative Art and Design Summer Course at International Creative Art & Design Academy (Chamberlain ICA) is a short course. This course adopts creative concepts of western art design. We encourage students to break the shackles of traditional art design education, to explore different artistic elements for expression, and to expand their comprehensive ability of art and design.

### Suitable For

- Students who are interested in studying western art design
- Students who wish to further improve the quality of their portfolio

### Course Pathways

3D/architecture/interior design, jewellery design, fine art (painting and oil painting), product design, illustration, graphic design, etc.

### Course Features

This course adopts the creative concepts of western art design. We encourage students to break the shackles of traditional art design education and to open their minds, using different thinking angles and methods to explore various art and design pathways. Our aims are to familiarize students with the creative process of western art design and to improve their creative skills and problem-solving abilities. The course is fully taught in English.

### Course Time

June - September, 2021 (Monday to Friday full-time)  
Please contact us for detailed schedule.
